

LOCAL RULES REGARDING TEMPORARY GREENS AND POSTING DURING SUMMER 2022

The RRMGA is adopting a Local Rule for all individual and team competition during the use of temporary greens during the summer of 2022.

TEMPORARY GREENS

A line will be painted around all temporary greens that have a flag stick. This will designate the extent of the temporary green. Any ball at rest and touching or overhanging the painted line shall be deemed to be on the putting surface.

In competition play, once the ball is on the putting green, the player shall make a stroke in attempt to hole the putt. If the ball is not holed but remains on the putting green, the player shall pick it up, add a stroke, for the pick up as a stroke and move to the next hole.

If the attempt at the putt does not remain on the putting green, the player must continue play until the ball is again on the green and then proceed as above.

All play on Temporary greens is deemed to be "Non Postable". Do not post these scores. All scores played outside of Robson Ranch are postable, unless so indicated by the course at time of play. Any player just practicing or playing "IDGAS" games are exempt from these rules as these rounds are not postable.

TEE BOXES

The tee boxes will be pushed back one level. The Pine tees will be now from the Black position, Rust from the Pine, Plum from the Rust. Combo

Tees will be played from the colored tee blocks you are used to; ie. Pine /Rust Combo will hit from the Pine/Rust tee blocks, etc.

ABNORMAL COURSE CONDITIONS (GROUND UNDER REPAIR)

Any areas of the course that are clearly disturbed by construction (whether marked or not) shall be played as Ground Under Repair and relief for lie, stance or swing is permitted with no penalty under Rule 16.

For GUR relief in the General Area, determine the nearest point of complete relief and drop within one club length.

If an entire bunker is designated as GUR, proceed under the General Area relief rules.

No GUR relief for a ball in a penalty area.
